EDUCATION

Jc Bose University of Science And Technology

Bachelor of Technology, Electronics

Faridabad, Haryana, India

Aug. 2019 – July 2023

Homerton Grammar School

Senior Secondary School

Faridabad, Haryana, India

March. 2017 – March 2018

EXPERIENCE

Junior Software Developer

HCL Tech

October 2023 – Present

Noida, India

- Collaborated with cross-functional teams to design and implement software solutions that met client requirements.
- Participated in coding, debugging, and testing of software components, contributing to the successful delivery of projects
- Skills: Javascript, Data Structures, Algorithms, OOPs, C++, Error Handling , MongoDB, ReactJS etc.

Software Developer Intern

MVDB Tech

Jan 2023 – July 2023

Pilani, Rajasthan, India

- Developed dynamic, responsive front-end components using React and JavaScript to enhance user experience for JHW Inc.'s web application.
- Collaborated with clients to gather and define requirements, ensuring the product met business needs and user expectations.
- Implemented modern web development best practices, optimizing site performance and functionality across multiple devices and browsers.

PROJECTS

Cine Fusion | *React, JavaScript, Vite, HTML, CSS*

August - 2024

- Developed "Cine Fusion," a dynamic React app that displays the latest movies and TV shows, organized by various categories, with live data fetching from external APIs
- Integrated features for users to view movie and TV show trailers directly within the app, enhancing engagement and user experience.
- Utilized modern React concepts, including hooks and state management, to build a responsive and interactive interface with real-time data updates.

Google Drive Clone | *React, Javascript, Html, Css, Material UI, Bootstrap, Firebase*

November 2024

- Built a fully functional Google Drive clone using React, JavaScript, HTML, CSS, Firebase, Bootstrap, and Material UI to enable cloud storage features such as file upload, download, and management.
- Implemented Firebase for real-time data synchronization, user authentication, and secure file storage, ensuring a seamless user experience.
- Designed a responsive and modern UI using Bootstrap and Material UI, improving accessibility and user interaction across multiple devices and screen sizes.

SLA Tracker | *Vue js, Javascript, Html, Css, Material UI, Bootstrap*

April 2024

- Developed a tool designed to enhance the Technical Assistance Center (TAC) team's capability to serve our customers more efficiently.
- This innovative tool retrieves real-time data on customer presence, subscription details, and mapping status.
- With this valuable information at their fingertips, our TAC team can provide more effective and timely assistance, swiftly addressing any presence or status-related issues that our customers may encounter

TECHNICAL SKILLS

Languages: Java, C/C++, JavaScript, HTML/CSS, SQL

Frameworks: React, Node.js, Material-UI, FastAPI, Bootstrap, Tailwind

Developer Tools: Git, VS Code, Visual Studio, IntelliJ, Eclipse
